TASKING SHEET

	SOURCE NO:
	DATE:
	suspense:
1.	PROJECT NUMBER: 92-90-0-F
2.	PROJECT NUMBER: 92-90-0-F METHOD/TECHNIQUE: Method of charce).
3.	BACKGROUND: The vessel known as
$\frac{-}{4}$.	ESSENTIAL ELEMENTS OF INFORMATION:
4.	- Determine il the
4. ————————————————————————————————————	ESSENTIAL ELEMENTS OF INFORMATION: - Sollermanne of the six currently of interest and pillegal aftering of interest.
4. 	- Determine il the
4. 	- Determine il the
iv	Determine if the activity of interest of the nature and extension of the nestern was involved and extension of the nestern was involved and activity in the pecent past.
in	- Soltermine if the activity of interest of the nature and extension of the activity. Determine if the vessel was involved
iv	Determine if the activity of interest of the nature and extension of the nestern was involved and extension of the nestern was involved and activity in the pecent past.
iv	Determine if the activity of interest of the nature and extension of the nestern was involved and extension of the nestern was involved and activity in the pecent past.
iv	Determine if the activity of interest of the nature and extension of the nestern was involved and extension of the nestern was involved and activity in the pecent past.
iv	Determine if the activity of interest of the nature and extension of the nestern was involved and extension of the nestern was involved and activity in the pecent past.
iv	Determine if the ressel was involved in activity in the nature and extension of the ressel was involved in such an activity in the pasent post. I etermine if the ressel will be involved in description in detail.
iv	Determine if the ressel was involved in activity in the nature and extension of the ressel was involved in such an activity in the pasent post. I etermine if the ressel will be involved in description in detail.
